

It's our people who make HSB successful

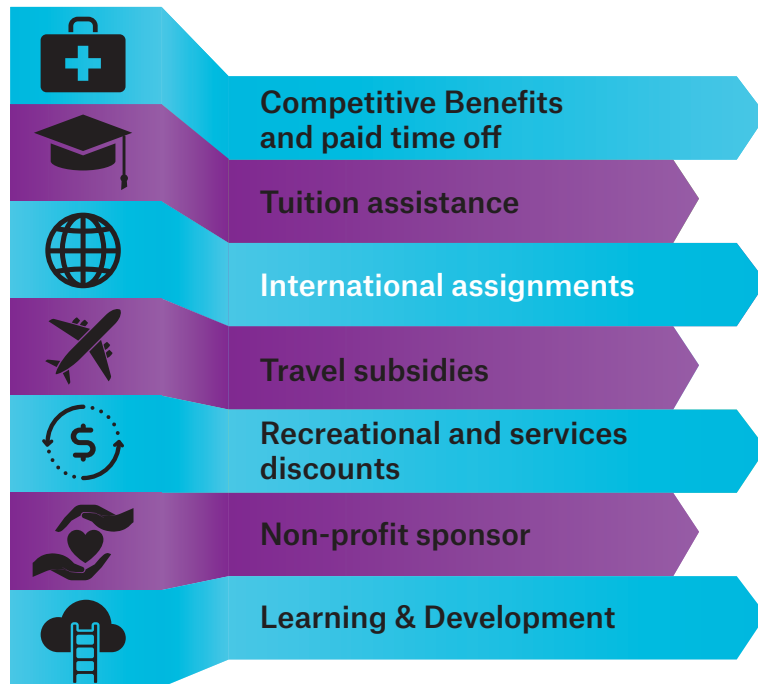

Our employees are among the best and brightest in the industry – if your passion is to do exceptional things and want to work with a company that values and rewards your contributions, take a look at HSB.

With **150 years of industry leadership**, **Hartford Steam Boiler (HSB)** sets the standard in equipment break-down insurance, which was formerly called boiler & machinery insurance. Along with other specialty insurance and reinsurance coverages - including **data** and **cyber risk**, **employment practices liability**, **contractors errors and omissions** and **identity theft insurance** - **HSB** helps you stay ahead of emerging risks in a complex world.

Our engineering and inspection services force is **one of the largest in the world**, with over **1,200 engineers, inspectors and technical personnel around the globe**. We offer **first-class inspection services, loss reduction and engineering-based risk management consultation for business, home and farm**.

What can HSB offer you?

Benefits

Culture

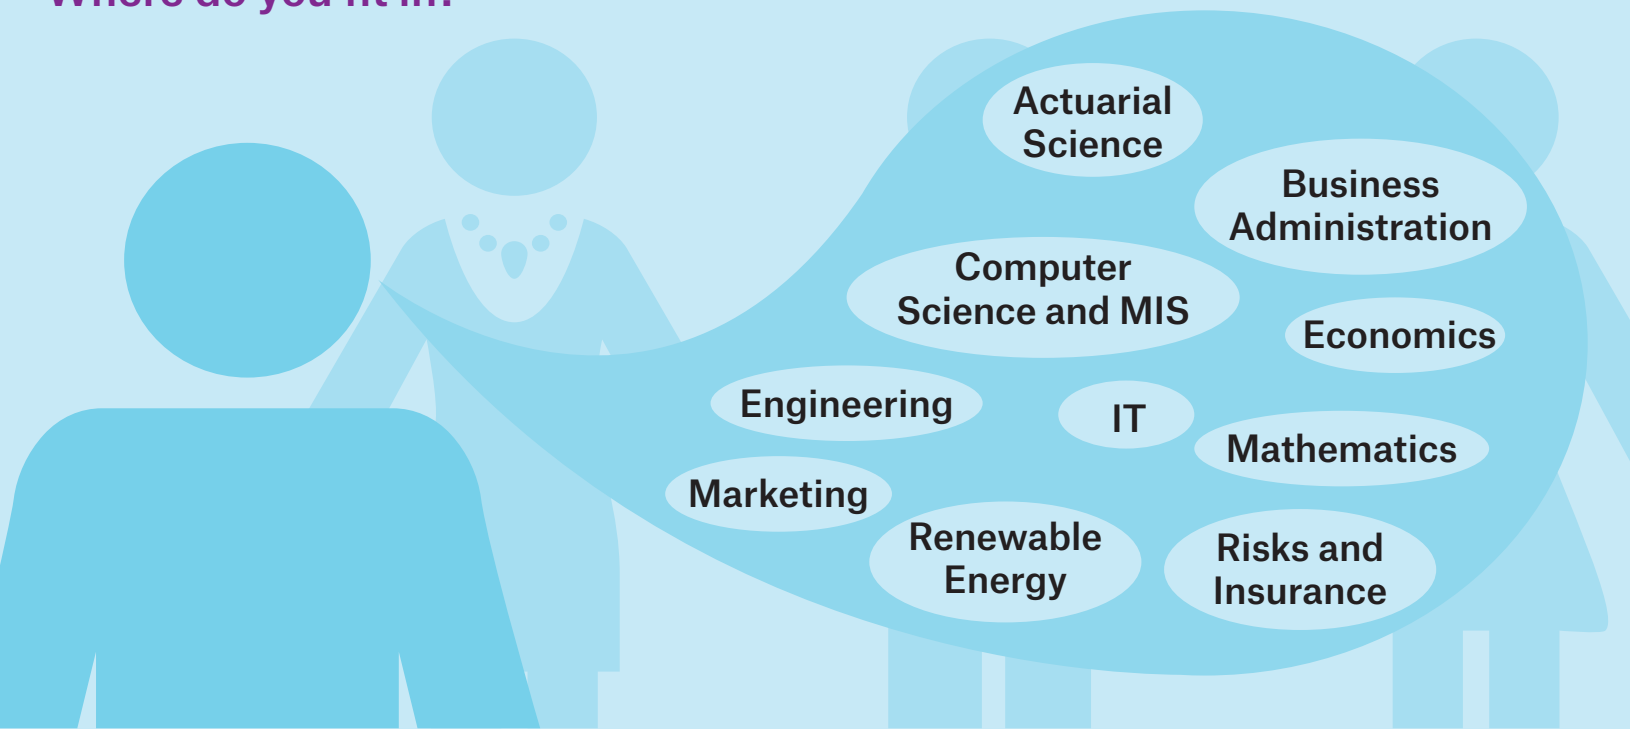

Volunteer opportunities

Employee get 2 paid volunteer days a year! Here are just a few opportunities

Where do you fit in?

What our employees are saying:

"I worked with pressure vessels in the Navy, and now I inspect them. The Navy taught me attention to detail, self-reliance, motivation and problem solving. These skills are fundamental to the work I do with HSB."

In less than three years I've progressed to the next Inspector level, and I'm working closely with my supervisor to achieve the next step in my career. HSB's upper management is committed to employee development, technological advances, safety and innovation. Everyone I've had the pleasure of working with is dedicated to the company and reflects the corporate culture."

Working from home for a great company that treats employees well and has a strong culture of inclusion has been the most rewarding thing about my career."

James – Inspection Services

"In a city dominated by insurance companies, HSB is a diamond in the rough. There is a strong employee culture of pride in our products and services, and this translates to the best experience for our customers."

Being in Human Resources, I have had the benefit of working closely with the majority of our business and corporate functional areas. The leadership team has been supportive of my growth, and has given me the opportunity to take an international role with our parent company, Munich Re Group. I'm very excited to contribute on a global level, but still be able to support HSB's employees in their own growth and development."

Stacy – Human Resources
